## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

1. Claims 1-39 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The newly added limitation of "first combining mineral oil with one or more liquid alkanes having three or more carbon atoms to form a mixture; followed by combining with the mixture of a catalyst system" is not fully supported by the original disclosure. Applicants' Example 5 of page 55 only support the specified example wherein the alkane is only limited to hexane and the catalyst is spray dried silica supported catalyst. Therefore, the newly added limitation is new matter.

2. Claims 1-39 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for the process for prepare a supported catalyst with the support being spray dried, does not reasonably provide enablement for a unsupported catalyst composition. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to use the invention commensurate in scope with these claims. The disclosed process only supports a supported catalyst composition with reduced foaming and viscosity, wherein the support is spray dried; however, the instant claims read on unsupported catalyst as well.

Art Unit: 1713

3. Claims 2 and 4-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The limitation "the slurry" lacks antecedence because the catalyst composition of claim is not necessarily in slurry form when the catalyst is not supported on a carrier.

### ***Response to Arguments***

4. Applicant's arguments and Declaration, filed July 12, 2005, with respect to the rejection(s) of claim(s) 1-39 under 35 USC §102/103 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made due to applicants' amendment to the claims.

### ***Conclusion***

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
